

City Council
Has Busy
Session

Harry N. Williams, Jr., was awarded the contract Tuesday evening by the city council to collect the garbage and rubbish in Palm Springs, for the sum of \$9700 per year.

All members of the city council were present.

The collection of money for the service will be made by the city and Mr. Williams will be paid in a lump sum. Vehicles used in the collection of garbage must be covered and must be leak-proof and fly-proof.

The garbage collection was turned over to the city by the sanitary commission because the sanitary district does not include all of the city.

Sunrise Way

The city accepted the deed for a 40-foot strip on the west side of the Field Club as one-half of the right-of-way for Sunrise Way, a new street from the east end of Tamarisk road to Ramon Road, thus making it unnecessary for students living in the northeast part of town to travel to the high school via Palm Canyon Drive or Indian avenue.

The Indian Bureau had previously decided a 40-foot strip along section lines surrounding all close-in sections of the reservation to the county for street purposes. Owners of private property on the east side of Sunrise Way had done the same, thus making of it an 80-foot street between section 14 of the Indian reservation and the Field Club.

It is believed property owners south of Ramon Road will make a similar donation to match the 40 feet donated by the Indian Bureau, making it possible to extend Sunrise Road to the Indian road for a direct route from Cathedral City to the high school.

Sunrise Way will parallel two sections on each side, being two miles long when completed to the Indian road. It is just one mile east of Indian avenue, and Ramon Road is just one mile north of the Indian road and a half mile south of Tamarisk road.

City Engineer Davidson was here yesterday to confer with Street Superintendent Jerry Sanborn and Councilman Alvah Hicks while preparing an estimate of the cost of improving the street. The field club fence will have to be removed. It is expected that state and federal aid may be secured as soon as the estimate is completed and a project statement is submitted to state and federal agencies in Sacramento and San Francisco.

Indian Avenue Paving

The street committee of the city council, headed by Councilman Pershing, is also making preparations to have Indian avenue pavement widened. This work is also to be done through state financing.

Special Election

The council is considering the matter of holding a special election authorizing it to accept the deed from Attorney George Wellwood Murray for the library site, and to fix a small tax

(Continued On Last Page)

DILLON ELECTED
AT PRIMARIES

Robert E. Dillon, incumbent, receiving more votes at yesterday's primary election than the combined votes of his two opponents, is re-elected to the office of county supervisor of the Fourth District. The final unofficial returns from all of the precincts, as reported from the court house today, was as follows:

Robert E. Dillon, incumbent3307
W. F. (Fred) Roberge1581
Walter Scott Dodge 569

Lions To Assist
School To Get
More Water

The Palm Springs Lions Club yesterday decided to assist the high school board to abate the dust nuisance around the new high school by endeavoring to secure about \$2500 for the purchase of a pump and pipe line so that the area around the school buildings may be irrigated.

Raymond Cree, president of the high school board, called attention to the matter yesterday noon at the Lions Club luncheon at Harry's Cafe. It met with such popular approval, that the club voted to authorize President Francis Crocker to appoint a committee consisting of Jerry Sanborn, Charles Burket, W. R. Hillery and John R. E. Chaffey, to investigate the matter.

The committee met immediately and decided the club should sponsor a campaign to secure the money immediately so that grass may be planted and irrigated before school opens a week from next Monday, September 12.

About a year before the high school (Continued On Last Page)

REALTOR PALMER
MOVES TO NEW
LOCATION

Archie O. Palmer, prominent Palm Springs real estate and insurance broker, announced this week that he has severed connections with the Palm Springs Corporation, Ltd., and that he is moving to North Palm Canyon Drive, where he has leased a large office in the new Hazel Morrison building built last season.

Mr. Palmer, who has been located in the Colburn Building opposite The Desert Inn, is very active in civic affairs. He is president of the Junior Chamber of Commerce and is very active in the Palm Springs Chamber of Commerce.

He states that his former office has become too small for his expanding business.

Richard Haas, who was formerly manager of Archie O. Palmer's insurance department, this week announced that in the future he will operate under his own name at the address being vacated by Mr. Palmer. However, Mr. Palmer will continue to maintain a complete insurance service in conjunction with his real estate business.

Mr. and Mrs. Palmer and family have leased a house for the season located behind the Hazel Morrison building.

TOTAL VOTE
FOR COUNTY
OFFICIALS

The following tabulation includes the complete unofficial count of all precincts in Riverside county:

COUNTY CLERK

Gordon Pequegnat17,918
Carey E. Dudgeon 5,958

SHERIFF

Carl F. Rayburn13,395
Roman Warren 6,864
Ray Hoagland 5,227
Ralph W. Stanfield 2,569
Perry Burnett 642

DISTRICT ATTORNEY

Earl Redwine14,943
Wallace P. Rouse11,991

TAX COLLECTOR

Chas. R. Stibbens12,947
Chas. B. Jones 7,854
Beecher W. Scott 6,309

TREASURER

Joseph F. Reimer15,747
Robert W. Bush 8,991

Despite the fact that he polled Tuesday nearly twice the number of votes given his nearest competitor in the five-cornered primary race for Riverside county sheriff, Carl F. Rayburn, incumbent, must go on the November ballot with Roman C. Warren of West Riverside in a run-off for this office, it appeared after the tallying had been unofficially completed in the 166 city and county precincts yesterday.

Even should the majority of the 1450 (Continued On Last Page)

Building Permits
For August
Total \$26,600

Building permits for the month of August totaled \$26,600. All of the permits were under \$4,000, the largest being for the Harold Barkow residence in Desert Sands.

Only three permits were issued this week, as follows:

Residence for Jack Freeman in Winter Haven Manor No. 3, on Calle de Marcus between Alejo Road and Grandview Val Monte. Harry Rocks, contractor.

Residence for Joe Butler, manager of Safeway Store, Warm Sands Tract, on Camino Real. It will be a modern five-room stucco house. Harry Rocks is the contractor.

Harold I. Smith, addition to garage on Sunny Dunes Road at Palm Canyon Drive, near the Gilmore station.

The Political
Fortune Teller

(Commending a Local Sooth-Sayer)

The Desert Sun wishes to compliment the Limelight upon the accuracy of its pre-election prediction, for it had the courage to publish on August 20 the actual number of votes it predicted each supervisorial candidate in the fourth district would receive at the primary election 10 days later. The Limelight might have been just a little more accurate if it had placed the name of Dillon over its Roberge column. This the official forecaster of that newspaper may have done, the transposition of names occurring in the composing room, possibly.

It is a fine thing to have a newspaper which is willing to give us the exact vote each candidate will receive 10 days before election, thus relieving the tension in a strenuous political campaign and making it unnecessary for the rest of us, who are not gifted with psychic powers, to sit up all night in order to get election returns.

Since the Limelight has decided to assume the role of the late lamented Literary Digest, we hope it does not abandon the pattern of Time Magazine.

It has been rumored that Princess Zoraida may not return this year because of the \$300 per year city license for fortune tellers. The Princess probably would not be able to compete with the Limelight, anyway.

Said the Limelight:

"It will be recalled by readers who treasure our words in the halls of memory that our Day and Night Census Department hit the election returns on incorporation right on the button (Limelight candidate 4 votes, Frank Shannon 116, in the sixth ward.—Desert Sun Ed.). This incident has always made us particularly proud and happy—not because it proved how accurate is our Day and Night Census Department, but because it enabled us to win fifteen dollars on the election. "Well, now for the facts.

Palm Springs Favors
Dillon, Hoffman,
And Templeton

Palm Springs and Cathedral City gave large majorities to Supervisor Robert E. Dillon, Judge Albert R. Hoffman for Justice of the Peace and Clarence Templeton for Constable of Palm Springs Township.

Shortly after the city was incorporated, Judge Hoffman was appointed to the position of city judge by the city council, at a salary of \$1.00 per month. He will hold both positions, making an ideal arrangement and a custom usually followed in cities the size of Palm Springs.

Following is the complete unofficial vote for the three offices in Palm Springs and Cathedral City:

Table with 12 columns: Office, Dillon, Roberge, Dodge, Hoffman, Luke, Adkins, Ransom, Templeton. Rows include First Precinct, Second Precinct, Third Precinct, Fourth Precinct, Cathedral City, and Totals.

Village Inn
To Open
Sept. 10

The Village Inn will be open about September 10 for the 1938-39 season. Miss Genevieve Granger, the manager, returned yesterday from Saratoga, where she spent the summer, and took charge immediately to have the popular hostelry ready by the 10th to receive guests.

Mrs. Nellie N. Coffman, owner of the Desert Inn, Village Inn and other Desert Inn enterprises, reported yesterday that the Village Coffee Shop will probably open September 15, that the beauty shop and barber shop will open before October 1st, and that the Desert Inn will open October 15.

EDITOR MEDBY OF THE
NEWS RETURNS

Roy M. Medby, editor and manager of the Palm Springs News, accompanied by Mrs. Medby, returned yesterday for the season. As soon as he landed in town Mr. Medby began searching for a home for the coming season.

Mr. Medby states that the first issue of the News of this season will be off the press Thursday, September 22. At present he is busy working on the Palm Springs Pictorial, which will go on sale about the middle of October. Medby states that this year's book is going to be even better than last year's fine production.

Jack Davis, advertising man on the News last year, will not return to Palm Springs this season, according to Mr. Medby. Davis has been doing political publicity work during the summer at Los Angeles. Edward Baily, a "grad" just out of U. C. L. A. will take the place of Jack Davis on the News staff, reports Editor Medby.

High School
Will Open
September 12

Palm Springs High school will open the school year of 1938-39 on Monday, September 12 at 8:25 a. m. Short sessions will be held the first two days. School will open at 8:25 and close at 12:25. The registrar's office will be open in the afternoon from one o'clock until five o'clock for new registrations and changes in registration. Regular sessions begin on Wednesday with school opening at 8:15 a. m. and dismissing at 2:45 p. m.

Advance registration dates—Thursday, Friday and Saturday, September 8, 9 and 10.

All new students who wish to register for the first time, and students who registered last spring wishing to make changes in their programs, may do so from 8 a. m. to 5 p. m. on Thursday, Friday or Saturday, September 8, 9 or 10.

JOHNNY BANKS TO
BUILD \$5500 HOME

Johnny Banks, tennis professional at El Mirador, and his fiancée, Miss Vosburg of Pasadena, were here this week to confer with Hiram H. Benedict regarding the construction of a new home here. The architectural firm of Finlayson & Benedict have prepared the plans and construction of a \$5500 home will start at once. Miss Vosburg is very prominent in social circles of Pasadena.

Phil Quaglino, manager of the Village Pharmacy, has returned for the season and is assisting the new owner, Joe Miller. The store was opened early this week for the season.

HERE ARE COMPLETE FINAL ELECTION RETURNS

Table with 18 columns: Supervisor, Governor, U. S. Senator, Assemblyman, Clerk, Sheriff, Dist. Atty., Tax Collector. Rows include Palm Springs and Cathedral City, Garnet, Cabazon, All of Beaumont Township, and Total Banning and Banning Hts.

The Window Seat

By W. D. JAMIESON
Former Iowa Congressman
Fierce Fight On

Months and months ago the WS said it saw a terrific fight coming on this fall, between the forces of privilege and the forces fighting for the rights of the common man.

This fight is now red hot and getting hotter. Nothing to equal it since the old Bryan days. Always will believe Bryan was defeated by money in Mark Hanna's hands.

This fight is partly to control congress, but mainly to control the 1940 national convention. It affects every one of you.

President Does Not Back Away

Like the way the President rolls up his sleeves and goes to it.

He knows the tricks his enemies, the conservatives in his own party, are trying to pull to stick the knife in him, and he brings them out in the open.

The kick I have is he waited so long to do it.

Intense Prejudices

They are intense, too. The other day a New Deal spellbinder spouted: "My friends, Franklin D. Roosevelt is the greatest man this country ever produced." Shouted an adverse farmer in the audience, "But I'm agin him." Paying no attention the speaker kept right on: "Don't you know that behind every great man there is a supreme power which inspires and influences him and controls his destiny?" The farmer retorted, "I'm agin her, too."

Arraying Class Against Class

President Roosevelt is accused of this, and is condemned by his enemies for it.

Regrettably (in some ways) I am sure it's true. I say "regrettably." This means I'm sorry conditions have come about so that a fight for the rights of the underpaid and the underprivileged millions of our people seems to mean setting one class against another.

It's the age-old fight of the "have's" against the "have not's"—the fearful fight of the rich and powerful against the poor and the weak. The latter are beginning to realize their rights. The President is the main cause for this.

On the other hand, I'm glad we're getting a clearer-cut line between the conservatives and the liberals, between the reactionaries and the progressives. This is as it should be. One school of thought or the other is going to prevail in this country.

I'm glad Mr. Roosevelt is bringing the thing out in the open. He is doing more than any other leader this country has ever had to separate the sheep from the goats. We're bound to differ in our opinions, but let's play the game with all the cards on top of the table.

There Are Four Main Parties

Two are under the democratic label and two are under the republican name.

They are the conservatives and liberals in both old parties.

Wall Street is lined up with the conservatives, just as the mass of the common people line up with the liberals when they know the truth. As natural as for water to run down hill. Wall Street is as anxious to re-elect Senators George and Tydings, conservative democrats, as they are to keep Senators Davis and Vandenberg, republicans, in. The common people want to keep Senators Norris and Nye as they want to keep Senators Wagner and Pepper.

I'm not saying this in any prejudiced or bitter way. Am only stating a simple fact known to everybody who sees what is going on in Washington and in the country. Nearly every senator and congressman is lined up more or less on one side or the other.

"Rubber Stamps"

We've heard this term of contempt a lot lately. It applies in the Tory press and in the general mind, to those senators and congressmen who, believing in the things the President stands for, generally vote for the laws he wants.

But there's another kind of "Rubber Stamp" among the members of congress which is a thousand times more dangerous. The kind that votes with the Wall Street, the special interest, and the financial groups, who always work with an eye single to "getting theirs."

This latter kind goes along quietly

without much publicity. It is so much more dangerous because it supports the selfish ends of these powerful groups. The Roosevelt "Rubber Stamps" are going along with a leader who is in the open, who has no selfish personal interest to serve, and who is working for the good of the common people.

Good "Providers"

These special interest fellows are generous with their "rubber stamps." Reminds one of Dinah. "Isn't your husband a good provider, Dinah?" "Oh, yassum, he's good at providin', all right, but Ah's allus skeered he's gwine t' get ketched at it."

Third Term Criticism

A valued WS-er, one I hold in deep affection and high admiration, writes from London:

"Interesting to watch your gradual change of mind and heart from a very outspoken opposition to a 'third term' for a President, to a calm acceptance of the idea, and later (?) an advocacy of it (?). It is a far more serious matter than it appears to be now. With such a precedent what would happen if we had a 'Hague' or a 'John L. Lewis'?" The tradition of a nation is a valuable asset."

Here are profound criticisms that can't be passed over lightly. Am not alarmed about the "Hagues" and the "Lewises." The people of our democratic country will take care of them.

That "tradition of a country" is another matter. How far should we get away from such a "tradition?" Exceptions do prove, at times, the high quality of a good rule.

Still it does seem circumstances are forcing a situation which may compel the President to stand for a third term.

Then, Why Not a Fourth Term?

Suppose the President is given a third term. Can't you picture the same conditions which might urge him to allow himself to be "forced" into a fourth?

His work won't be finished even then, will it? He probably will keep his hold on the masses, won't he? Where then would you find a man who will compare with him, to take his place? Won't his selfish office-hangers-on demand he stay in? Where will it stop?

No, I don't like the third term idea one little bit. But what I like or don't like doesn't blind me to the apparent trends. Greatly prefer a third term to a reactionary—democrat or republican.

A Mighty Faithful Servant

The President goes fishing—cabinet members all leave town except Secretary Hull, to play—nearly all the senators and congressmen are either in their home districts looking after getting elected again, or are out having a good time.

But not so with Senator Morris Sheppard. Texas has a right to be proud of him, as the whole nation is. Not only because he's served in the house and senate combined longer than any other member, but also because he has his sleeves rolled up and is sticking right on the job here every day from early until late, looking after one of the most important pieces of work ever loaded on any member.

A Vital Committee

The work of his special senate committee checking up expenses of senate candidates gets right down to the foundations of our republic.

If the ballot is debauched—if dirty money buys nominations and elections—if relievers and others drawing federal pay are forced to vote for certain candidates for fear they will lose their jobs if they don't then our democracy is on its way out.

Senator Sheppard is chairman of this committee. He didn't want the job. Took it as a duty. He's mild and courteous usually, yet he becomes ferocious and a fighting tiger when it comes to his attention that the sacred ballot boxes—the only hope of a free people—are being corrupted. He finds plenty to make him fight.

He surprises everybody by the vigor he's putting into his work to save the ballot. Washington weather this summer has been about the hottest and meanest in the country. But he plows right through, just the same, working beyond all union hours. Our country is safe when we have men like Morris Sheppard at the helm.

This committee is finding alarming conditions. In Kentucky the Chandler forces charged the Barkley group with forcing WPA and PWA workers to vote for him, while the Barkley forces charged the Chandler group with compelling the Social Security beneficiaries to vote for him.

In Tennessee the same charges are made. In Pennsylvania high officers are charged with violating the criminal law in efforts to compel federal and state employees to "chip in" for campaign funds.

Senator Dave Walsh, of this committee, says the things revealed, if un-

THE "DEAD END" KIDS, SENSATIONAL NEW STARS, COMING IN "LITTLE TOUGH GUY"

HUNTZ HALL, HELEN PARISH, BILLY HALOP

checked, will destroy our freedom—terrible.

Fire 'Em Out

Senator Sheppard, if you find senatorial candidates are guilty, fire 'em out of our senate. For the other violators, urge the department of justice to prosecute.

The country is squarely back of you in this clean-up work. No matter whether the offenders are high or low, treat 'em rough.

I can hardly imagine a more traitorous act than for a candidate to attempt to compel a poor man or woman on relief to give up his freedom of choice as a citizen, by making him feel he must vote for certain candidates in order to keep his means of living.

I know Senator Barkley well. A man of character. He's senate leader and ambitious. Wanted to be nominated for vice-president with Al Smith in '28, and now has his eye on the presidency to succeed Roosevelt. I can't conceive of his doing a thing of this sort.

But no matter who they are, if guilty, punish to the limit.

Readers, you and I may differ about President Roosevelt, or the New Deal, or other policies, but we are a unit in demanding that our voting shall be as free from corruption as possible.

Senator Sheppard, you are doing a great work.

In this vote corrupting we're headed in exactly the wrong direction to keep our freedom. Senator Sheppard is helping to turn us around and head us right. The tourist asked the little Texas boy how far it was to Smithville. "It's 24.996 miles the way you're going, but if you turn around it ain't but four."

Readers, get this! It's a hard-headed, practical scheme to drag us out of the crisis in our nation and in the world, and to keep us out. The only plan that will work, cited by a high official who has seen all other plans.

Assistant Secretary of State Sayre, (Woodrow Wilson's son-in-law), says in a signed statement:

"Only Jesus Christ probed deep enough to bring forth a body of teachings which bears the stamp of perfection for all time and for every race. . . Turn to Him we must if we are to save our civilization." Nothing "preachy" about this. Only sound sense.

Secretary Sayre says humanity demands the fundamentals of a profound faith in the essential goodness of life, it demands happiness, and it demands the pathway to power. You agree, don't you?

It now scrambles for them in vain. It pulls and tears for material things. Result—more chaos, more crime, more distress.

Jesus Christ says, Matthew 11:29: "Learn of me. . . and ye shall find rest unto your souls." He lays down the plain and simple rules for the game of life, and the only ones that work, always.

Wish President Roosevelt had this as deep in him as Secretary Sayre says it. But its just as much for you and me.

MAN ARRESTED AT PALM SPRINGS ON D.W.I. CHARGE

Archie Foro of 231 North Twenty-seventh street, Los Angeles, who was arrested at Palm Springs on Sunday, August 21, charged with driving while intoxicated, was fined \$100 when he appeared before Justice of the Peace J. J. Fredericks last week.

Foro paid \$50 last week and was released.

Pay telephone bills before the 25th and receive discount.

Described by critics as the most natural actors on stage or screen, the "Dead End" Kids give full play to their unique talents in the Universal picture, "Little Tough Guy," an astonishing document of reckless youth, which starts Friday at the Banning Theatre.

The boys are in featured roles in "Little Tough Guy" with Helen Parish, Robert Wilcox, Jackie Searl and Marjorie Main.

"Blind Alibi," starring Richard Dix will be the second feature.

PALMS TURNOFF SIGN IS LIGHTED

Tourists and visitors to the Morongo valley and Twentynine Palms area at night should in future find it less difficult to locate the turn-off point from Highway 99 near Whitewater. Contractor Les Cross and his crew of men are this week completing work on flood-lighting the large 10 by 30 foot highway sign located at that intersection. The work is sponsored and financed by the Twentynine Palms chamber of commerce.

The lighting of the large sign fills a long-felt need, as the highway intersection, located about two miles east of Whitewater, has heretofore had no illumination after dark.

Maintenance of the sign has been placed in charge of Phil Lacy, who has his residence and business at the intersection.

MR. W. D. ANNOUNCES NO INCREASE IN TAXES

No increase will be made this fiscal year in the tax rate of the Metropolitan Water District of Southern California, it was announced Saturday. The district board of directors vot-

ed to limit the tax levy for the year 1938-39 to a 40-cent rate, the same rate in effect during the past fiscal year.

General Manager F. E. Weymouth stated that by the end of the present fiscal year the aqueduct system will be 92 per cent completed. At the present time, the 392-mile long water supply system is 85 per cent completed, he said.

Approximately \$32,000,000 of additional bond funds were invested in aqueduct construction work during the past year.

THANK YOU, VOTERS OF PALM SPRINGS

I wish it were possible for me to personally thank each one of my loyal supporters who so faithfully worked for me during the immediately past campaign and who turned out so well to vote for me on election day.

This being impossible at the present time, I take this means of expressing my gratitude to the people of the Fourth Supervisorial District and of assuring them that I will continue to do the utmost in my power to serve my district to the best of my ability.

ROBERT E. DILLON

Supervisor, Fourth District, Riverside County

Mr. and Mrs. Voter Palm Springs Township

It is with sincere gratitude in my heart that I take this means of thanking the voters of the new Palm Springs Judicial Township for their loyal support given me in my candidacy for Constable. Such faithfulness from my fellow citizens has indeed made me happy.

CLARENCE L. TEMPLETON

Constable-Elect, Palm Springs Township

My Thanks

I take this means of expressing my gratitude to the voters of the new Palm Springs Judicial Township for the splendid support given me in my candidacy for Justice of the Peace.

Supervisors Canvass Vote

Working in shifts on the tedious task, supervisors of Riverside county today continued the official canvass of the ballots cast last Tuesday in the primary election throughout 166 precincts.

Totals are being checked and additions made to determine the number of ballots cast for each candidate, in the office of County Clerk D. G. Clayton.

It is anticipated that the canvass of the tally sheets from every one of the precincts, both within and without the city of Riverside, will be completed Saturday.

It will not be until then that any totals concerning the candidates for office on the county central committees can be obtained, officials announced yesterday.

Information also on the numerous candidates who ran unopposed at the Tuesday election will be made available after the final count is attained by the board members.

Working in the supervisory room, the work began Thursday with Chairman W. C. Moore of Riverside, who did not seek to succeed himself in the second district, presiding.

F. W. Hock and J. C. Roberts of the county clerk's office were assigned to the clerical work in connection with the canvass.

Interest in the tabulated votes of candidates who were in some of the hard-fought contests for votes, continues high throughout the county as well as the state.

Absentee ballots are to be counted next Tuesday.

RICHARD HAAS ANNOUNCES OPENING OF OWN INSURANCE OFFICE

Richard Haas, who has been associated with Broker Archie O. Palmer for the past six months as manager of the insurance department, this week announced that he has gone into business for himself.

Mr. Haas will operate out of the same office on South Palm Canyon Drive opposite The Desert Inn. Mr. Palmer having leased a new office on North Palm Canyon Drive. He states that he will write all lines of general insurance.

Mr. Haas moved to Palm Springs in January of this year from Los Angeles with Mrs. Haas, who has been summering in the city. However, Mrs. Haas returned this week for the season.

He has been in the insurance business for the past 16 years, Haas said.

CONTRACTOR HARRY ROCKS ANNOUNCES CONSTRUCTION OF NEW HOMES

Contractor Harry Rocks has announced that construction will start next week on the new home in Winter Haven Tract for Jack Freeman.

Rocks also will start construction Monday on a home for E. Van Dillon, superintendent of schools at Ventura.

CATHEDRAL CITY DRUG TO OPEN ABOUT OCTOBER FIRST

Mrs. C. E. Cruncleton announced this week that the new Cathedral City Drug Store will open about October 1 at that popular desert village.

The new drug store will fill a much-felt need at that desert community, which has never had a drug store before.

NEW HOME STARTED FOR MR. AND MRS. JOE BUTLER OF SAFEWAY STORE

Construction started this week on the new home in Warm Sands Tract for Mr. and Mrs. Joe Butler. It will be an attractive little two-bedroom residence located on Camino Real.

Mr. Butler is the popular manager of the local Safeway Store. He and Mrs. Butler have resided here for almost three years.

Contractor Harry Rocks is building the home for the Butlers, and he states that it will be ready for occupancy about October 1.

Francis Crocker, local manager of the Nevada-California Electric Corporation and local civic leader, returned Monday from a month's vacation spent with his father, Howard F. Crocker. Mrs. Crocker and their two young sons, Jeremy and David, remained in Denver for a longer stay and will return here about Sept. 13. Mr. and Mrs. Crocker visited the scenic places in the mountains around Denver, and enjoyed several horse-back rides.

Mrs. A. Ferdon, manager, is here supervising extensive improvements to El Casa Don, which is situated on North Indian Avenue opposite the Desert Retreat.

Larrison Car Stolen at Cathedral City

A car belonging to C. W. Larrison of Cathedral City was stolen from the Larrison home at the neighboring desert community Wednesday evening at about 7:30, and as yet the Plymouth sedan has not been located by the police.

Palm Springs officers investigated the theft.

It is said that two boys about 14 years of age are suspected of the crime. Assuredly they were seen riding bicycles at Cathedral City earlier that evening; and later, it is claimed, they were seen at or near the scene of the crime.

The theft has been broadcast over the teletype.

Max Ransom Honored at Lipps' Party

Several hundred political enthusiasts and a number of office-holders and office-seekers gathered at the Barn Monday night—the occasion being the Tom Lipps party in honor of Max Ransom, a recent candidate for constable of the new Palm Springs Judicial township.

Highlights of the evening were speeches by several candidates, dancing, "hot dogs," and liquid refreshments.

The party was a big success with Tom Lipps acting as master of ceremonies at the microphone. He introduced Max Ransom, in whose honor the party was given, and such luminaries as Congressman Harry Sheppard, Deputy District Attorneys William O. Mackey and Harry Amstutz, Sheriff Carl Rayburn, Wallace P. Rouse, recent write-in candidates for justice of the peace Charles H. Adkins and Tom Luke, W. F. (Fred) Roberge, and Supervisor Robert E. Dillon.

Congressman Sheppard gave a fine talk during which he expressed the fact that he was born in Alabama, is thoroughly imbued with the principles of the Democratic party, and that he is 100% in support of President Roosevelt and his principles.

Attorney Amstutz delivered a fine address in behalf of District Attorney Earl Redwine, who was confined in bed at that time suffering from a severe throat irritation.

Max Ransom gave a short, straight forward talk in which he requested in a sincere manner the support of those present. Also Supervisor Dillon and W. F. Roberge gave short but interesting talks.

The party was a peppy one, with a band from the musicians headquarters at San Bernardino furnishing some real music. Beer, a bar and signs tacked on the wall such as "Vote For Max Ransom For Constable" added to the atmosphere of a political gathering of the "gay nineties."

All in all, the party was a gay affair with villagers "politicking," dancing, and celebrating into the wee small hours of the morning.

CONTRACTOR RAY HANZLIK RETURNS FROM IDYLLWILD

Local Contractor Ray Hanzlik returned to the village Monday from a pleasant summer spent at Idyllwild. He is back for the season.

Mrs. Hanzlik and the rest of the family will not return until a little later. Contractor Hanzlik said yesterday.

SHANNONS HOME FROM LONG MOTOR TOUR

Mr. and Mrs. Frank V. Shannon of Palm Springs have returned from an extended motor trip, approximating 7,000 miles. They motored as far East as Pittsburgh, where they visited Mrs. Shannon's sister, Mrs. Nellie Wirth, who accompanied them on their return to California. Mrs. Wirth will spend the coming winter in Palm Springs.

John G. Munholland, realtor and subdivider of Palm Springs Village Tract, was here from Long Beach for two days this week. He left today for Idyllwild, where he will go on a hunting trip with his two sons.

L. J. Hayes, who established the Palm Springs Garage here some years ago, but who leased the garage to other interests last season, has returned here and will be in personal charge again this season. Mrs. Hayes will again have charge of the office.

Lions Club Notes

F. F. Crocker, Pres.; Phone 3421
C. A. Hyde, Sec'y., Phone 207
(Summer unofficial meetings held each Thursday noon at Harry's Cafe.)

This week saw the return of President Francis Crocker, R. M. "Pop" Gorham, and Ray Cree to the fold. These Lions have been enjoying extended vacations.

Fifteen attended the meeting at Harry's this Thursday noon, with the politicians being conspicuous by their absence. During the recent campaign local Lions meetings were graced with the presence of many office seekers, but only Judge Hoffman and Max Ransom, both prominent members of the club, showed up at the meeting of this week.

Attending the meeting this week were Al Gardiner, Merrill Crockett, Mayor Bill Hillery of Cathedral City, Charles Burket, Carl Barkow, Max Ransom, Rufus Chapman, guest Bill Mason, John Chaffey, Judge Hoffman, "Pop" Gorham, Ray Cree, Principal Morris F. Richardson of the Andhra Research University in Madras district, Jerry Sanborn, and Harold Barkow.

Several men were asked to give short talks on what they thought is in store for Palm Springs this coming season.

When Principal Richardson was called upon, he stated that at least 10 new students are moving to Palm Springs this year because of the establishment of a high school here.

ROSICRUCIANS TO SEND DELEGATES TO TIBETAN MONASTRY

From out of Enigmatic India came an invitation for an American delegation to study its ancient mystic arts and sciences, for the purpose of later admitting the delegation into the sanctuaries of Tibet.

Seven hundred members of the Rosicrucian Order, AMORC, a philosophical fraternity, assembled at their 1938 convention in San Jose, who received the invitation from the Andhra Research University in Madras district, voted to accept it and send a delegation in 1939.

Mrs. A. C. Garner, local member of the Rosicrucian Order, who has just received an official report of the International conclave just concluded, states that the delegation will include the grand secretary of the order, Ralph Lewis, and two others, including a motion picture cameraman who will take with him complete sound recording equipment. Representatives of the order will study certain rare manuscripts available at the university, to ascertain the truth or falsity of the claims to phenomenal power and control of Natural law made by the followers of the mystic sects of India. While making this research, negotiations will be made by the university officials, who include the Maharajah of Jeypore, for the party to visit certain secluded Tibetan monasteries in the Himalayas, where it is hoped permission will be granted to film heretofore unrevealed customs and rites of the Lamas who are alleged to have miraculous powers.

Mrs. Garner also states that the delegation will be sponsored by the Rosicrucian Oriental Egyptian Museum, an affiliate of the philosophic order. Nine foreign countries and every state of the union and province of Canada were represented at the recent conclave. An exceptional feature of the convention was the first showing of the sound motion picture "Along Civilization's Trail," which was filmed by a Rosicrucian camera expedition in Egypt and Mesopotamia in 1937.

PALM SPRINGS HOTEL RE-OPENED THIS WEEK

Bill and Margaret Foldes returned last Sunday to this week re-open the Palm Springs Hotel. Rooms are now available at that popular hostelry, but the dining room will not open until October 1.

Manager George Karoly and Proprietor George Foldes will return to the village in the near future, Miss Margaret Foldes announced yesterday.

Tanner Motor Livery resumed taxi and limousine service here on September 1st, with headquarters at El Mirador Garage. W. H. Chapman is in charge until Local Manager Cecil Isenagie returns for the season. Mr. Isenagie at present is in Pasadena.

Postmaster R. M. Gorham returned Saturday from a three weeks' vacation spent in the Pacific Northwest. Among the places he visited were Crescent City, Klamath Falls, Crater Lake, and some of the large lumber mills in that area. The round trip was made via the scenic Redwood Highway.

Our Boys and Girls

(By Dr. W. C. Gunnerson)
Superintendent Banning Union High School.

Announcements of Interest to Pupils and Parents

The high schools at Palm Springs and Banning will open at 8:25 on Monday, September 12, 1938. The first day's session will be a half day only, running from 8:25 to 12:25 or 12:30. Students will please notice that the school day opens earlier this year than heretofore.

Preregistration and locker assignments at the high school in Banning will be as follows:

Seniors—Thursday, Sept. 8 at 10 a. m.

Juniors—Thursday, Sept. 8 at 1 p. m.

Sophomores—Friday, Sept. 9 at 10 a. m.

Freshmen—Friday, Sept. 9 at 1 p. m.

Students will please be present promptly at the hours given and on the days given as there is a great saving of time if all of a given group are present together on time.

Anyone who registered last April or May does not need to come again to reregister. However, if students who are already registered want to come on the days and at the hour given, they will be able to receive their room and class assignment cards and also be assigned their lockers.

Lockers are going to be scarce at Banning because a good many are being taken out of the old building and placed in the new.

Students who did not register in April or May will help a great deal if they will come on September 8 and 9 and get their registration over with. Let me stress again that it makes it much better for the office if all juniors, for example, come at the hour and on the day set for juniors, and not when seniors, sophomores, or freshmen are scheduled. Be as considerate as you can. The "office" exists for your benefit but a little thoughtfulness on your part will pay dividends.

The opening weeks in both high schools will afford students a splendid opportunity to practice the virtues of tolerance, gentleness, and courtesy. There will be confusion worse confounded unless all the students all the time are considerate and thoughtful. I believe that you will be when you understand some of the difficulties we have labored under in trying to get these schools ready for you.

Banning will start the year without a lot of lockers, without a time clock or automatic signals, without arm tablet chairs in the study hall, without folding chairs for emergency use, and without a properly equipped athletic field. The clock and lockers have gone to the new building for later use, the chairs have gone to Palm Springs so the students there might have something besides the floor to sit on and the old athletic field has the new building on it.

Palm Springs will start the year with borrowed seats and improvised desks for teachers. Much equipment and many supplies will be lacking. It may be some weeks before intended equipment will arrive. In the meantime, at both schools, there is need for patience and indulgence.

The board, the architect, the superintendent, the principal, vice-principal, and the office assistants have all done all that seems possible to be done. We ask for them the same sympathy and understanding given to the actors in the old-time western theater where the sign read, "Don't shoot the actors, they're doing the best they can."

RUSH UNDER WAY FOR LAND ALONG LAKE NEEDLES SHORE

A rush for wealth is under way near Needles, though now the rush is for land, not gold—land surrounding the new Lake Needles being created by Colorado River waters penned behind Parker Dam.

Public and private interests are engaged in a race for choice lake frontage, and all envision this body of water in the burning desert as a new playground of the west.

Deep washes draining the region around Lake Needles make it difficult to determine the length of its shoreline, but it will exceed 100 miles, said H. C. Hazlewood of the geodetic survey. It will be at least two years before the lake is filled.

A maximum width of three miles will be attained in the 30-mile long Chemehuevi Valley south of Needles peaks. Like the shoreline north of the peaks toward Needles, the lake in this valley will have a frontage of low rolling alluvial hills dotted with mesquite, greasewood, smoke trees and fields of cholla cactus, uninhabited except for a few Chemehuevi Indians.

At Topock, Arizona, 16 miles south of Needles, L. A. Crinklaw, merchant, has leased 2000 feet of Santa Fe railroad land between U. S. Highway 66 and the lake and will build a large resort.

sort. It has a commanding position at the upper end of the Needles peak gorge, the red and black cliffs towering above the 400-foot channel.

Two river vessels are being built to haul passengers and supplies up and down the lake.

JUSTICE PHIL TRUBY AND CONSTABLE LOVREN REELECTED
Judge Phil Truby and Constable John Lovren were returned to office by decisive majorities at Beaumont. The many friends of these two capable officials offer congratulations.

Thank You

I wish to thank my friends for their support in the recent primary campaign, and extend my congratulations to Mr. Clarence Templeton, who was elected. He will be a good constable, and I assure him my hearty co-operation.

I will continue to do my part to keep Palm Springs warm this winter by supplying the residents with the best fuel obtainable.

Sincerely,

M. M. RANSOM

Talbot Wins; Flaherty, Clay In Run-off

With three supervisorial districts in the county balloting for contestants Tuesday, Riverside county retained Supervisor R. E. Dillon of Beaumont for the fourth and Supervisor E. C. Talbot of Perris for the fifth supervisorial district. In the five-cornered race of candidates to succeed Chairman W. C. Moore of the second district, who had refused to seek reelection, T. F. Flaherty of Riverside and Thomas Clay of West Riverside were named to go on the November ballots.

With his defeat in the race for sheriff, Supervisor Ralph W. Stanfield of Corona, first district, will retain his position on the board. W. V. Pittman is third district supervisor.

The total of votes in the three districts, unofficially resulted as follows:

District 2	
Flaherty	2293
Clay	1125
Ed Hill	769
Ed Russell	719
T. L. Thourston	318
District 5	
Talbot	3046
Floyd E. Gilmore	2303
Tommy Rawson	634

Lions To Assist--

(Continued From First Page)

was built, the old high school board had a well drilled on the upper end of the school property. The drillers reached an abundant supply of good water, but the matter of installing a pumping plant was deferred until needed. However, all the available money was spent on the school buildings, and the board has no money at the present time for the pump and pipe line.

Mrs. Nellie Coffman, chairman of the grammar school board, has given the high school board permission to take all the Bermuda grass it needs from the old Desert Inn golf course, which will take root and spread if planted and irrigated at once. The grass does not become dormant until December. This method was used at the Field Club and a good turf formed in two years.

The school property was graded recently and therefore the light soil is loose and is blown by the slightest breeze. Unless it is kept moist until covered with grass and other vegetation, the school building will be menaced almost constantly with dust.

The high school board does not have the right to borrow money, but it can lease the pump and pipe line and thus the donors may be repaid eventually.

ESCAPED PRISONER RETURNED TO JAIL

James B. Camp, Palm Springs, road camp fugitive who was apprehended at Colusa, was returned to Riverside Friday and booked at the county jail.

Returning him from the northern California county was Deputy Sheriff Zollie Hair, detailed for the assignment of bringing back Camp.

Camp with two other prisoners fled from the industrial prison camp at Banning, May 31, and was unreported until word was received from Colusa of his arrest there on a petty theft charge.

He will probably be arraigned on the felony count, leading to probable San Quentin confinement, before Superior Judge O. K. Morton today.

Camp was originally sentenced to the prison camp on his plea of guilty to a burglary charge.

Pay telephone bills before the 25th and receive discount. tf

CHRISTIAN SCIENCE CHURCHES

"Man" is the subject of the Lesson-Sermon on Sunday in all Churches of Christ, Scientist. The Golden Text is from the Psalms: "Blessed are they that dwell in thy house: they will be still praising thee... O Lord of hosts, blessed is the man that trusteth in thee."

The Lesson-Sermon includes these words of Jesus, from John: "My sheep hear my voice, and I know them, and they follow me: And I give unto them eternal life: and they shall never perish, neither shall any man pluck them out of my hand. My Father, which gave them me, is greater than all: and no man is able to pluck them out of my Father's hand."

Among the correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, are these statements: "If Life or Soul and its representative, man, unite for a period and then are separated as by a law of divorce to be brought together again at some uncertain future time and in a manner unknown,—and this is the general religious opinion of mankind,—we are left without a rational proof of immortality. But man cannot be separated for an instant from God, if man reflects God."

Total Vote--

(Continued From First Page)

absentee voters ballots be counted for Rayburn, he could not exceed the total of the votes given his four opponents. The absentee votes, in accordance with the state law, cannot be counted until next week, as six days must elapse between the election date and the receipt of the ballots by mail in the office of the county clerk.

Official canvass of the regularly cast ballots began today by the county supervisors.

In the contest for the office of county tax collector, it now appears that the incumbent, C. R. Stibbens, may be relieved of the need for running in the November race only if a sufficient number of the absentee votes are in his favor. In case the absentee votes are divided, Stibbens and Jones will be on the November ballots.

The hard-fought race between District Attorney Earl Redwine and his only opponent, Wallace P. Rouse of Indio, was decided at the primary election Tuesday in favor of the incumbent.

Gordon Pequegnat, chief deputy county clerk, will succeed his present chief, Dudley G. Clayton, who will retire from this office after 20 years of service to the public, as he received an overwhelming vote in the race with Carey E. Dudgeon of Riverside.

Complimentary votes were received by the several county officials seeking return to their positions without opposition. They included County Auditor Ray T. Hicks, E. E. Smith, superintendent of schools, Assessor George V. Clayton, Recorder Jack A. Ross, Coroner Ben F. White and Surveyor A. C. Fulmor.

Results of balloting for the Democratic and Republican county central committees were not yet available last night.

City Council--

(Continued From First Page)

rate to provide approximately \$2,000 a year for library maintenance.

Prohibit Draw Poker

The ordinance prohibiting draw poker was adopted, which prohibits poker parlors in Palm Springs. Stud poker and other gambling games are prohibited by state law and it was therefore unnecessary to include these in the city ordinance.

Raise License Fees

Sections 27 and 79 of the business license ordinance were amended fixing the license fee at \$150 per year for one vehicle operated by out-of-town building material dealers, making deliveries in Palm Springs, and \$25 for each additional vehicle.

Section 76 was amended, fixing the license fee at \$48 per year for each vehicle delivering in Palm Springs operated by out-of-town laundry and cleaning establishments. The amendments had the first reading Tuesday evening.

Planning Commission

Mayor Philip Boyd announced the appointment of six members to the new city planning commission. They are: John Porter Clark, chairman, appointed for a term of four years; George Roberson, three years; Dr. Henry Hoagland, two years; William E. Reis, two years; R. F. Outcault, one year; John R. E. Chaffey, one year. The law provides that the mayor must appoint six members of the commission and that the city council must appoint three. The mayor, city attorney and city engineer are ex-officio members.

Franchise Committee

Councilmen Frank Pershing, Frank Shannon, Bacon L. Clifton, John Williams and Robert Murray were appointed by Mayor Boyd to work on matters of franchises for all public utilities. The matter of franchises came to the council's attention when Tanner Motor Livery applied for a franchise to provide certain transportation facilities in Palm Springs.

Protest Detour

Robert Ransom called the council's attention to the dangerous detour on the state highway between Cabazon and Banning and the city clerk was instructed to write State Highway Engineer E. Q. Sullivan at San Bernardino regarding the matter. Mr. Ransom said it was very important that the bridge should be replaced or the road straightened before the beginning of the busy season on the desert, because Palm Springs residents and visitors must travel over the road.

It is reported that the Palm Springs Business Men's Association will also take up the matter with the state highway department.

Economic Highlights

The business picture has been marred by some unfavorable factors lately. But, taking it by and large, the outlook for steady if slow improvement seems to remain good.

One bad element has been renewed weakening in the commodity price structure. The values of wheat and other farm futures have tended to decline, in spite of efforts to hold them at stable levels. There have been no sharp breaks, however, and general opinion believes that prices will soon strengthen.

Also bad has been the chaotic situation abroad. Hitler seems to be playing the old game of "bluff Czechoslovakia" again. Foreign currencies, notably the franc and the pound, have lost ground in their relation to the dollar. But most authorities regard all this as being of little importance. They think a general war in the immediate future is unlikely, largely due to the economic weaknesses of the totalitarian states, and that matters abroad will continue about as they have during the past two or three years, with "crises" appearing periodically, making the headlines, and then dropping into obscurity.

So far as the figures are concerned, the domestic situation is good. Everything seems to be present that is needed for a stable recovery movement. The 1937 recession resulted in production falling behind consumption. Merchants large and small reduced their inventories to the minimum. Buying was on a hand-to-mouth basis, both because of hard times and because of the expectation that sharp price reductions must occur. Today, with consumption of perishable goods rising, and with the government's latest emergency spending program putting a spark of life into the long-paralyzed durable goods industries, commerce is being forced to replenish its stocks. This is proven by the Federal Reserve Board's index of industrial production, which made its first gain of the year in June, and which is now five or six points above that level.

Some briefs of interest follow: Steel: Operations have held to a fair level, and substantial fall improvement is expected. Future commitments are good.

Motors: As is always true in mid-summer, production is now almost nil. But some makers are planning more of a spurge with their 1939 cars than they thought was wise a few months ago. The general upturn in business and sentiment has encouraged them.

Electric Power: Production, when seasonal adjustments are made, is at a good level. Outlook indicates that fall consumption will be close to the 1937 level. On the adverse side, sentiment in the industry is at a low ebb, due to politics.

Agriculture: As mentioned above, prices have weakened. On the other hand, the chances are that the farmer's cash income for major crops will be reasonably satisfactory this year—though prices will be lower, yields will be higher, especially in the case of grains.

Employment: Latest figures which have any pretense to authority indicate that there has been a fair amount of reemployment by industry, and that material gains will be made after Labor Day. On the other hand, at least 10,000,000 people are still out of work, and there seems to be small chance of most of them finding jobs, unless a business revival of much greater intensity than anyone anticipates occurs.

Securities: Turnover on the stock exchange has slowed somewhat. But prices have held their gains for the most part, and bullish sentiment is still uppermost. The market has become less influenced by European scares—there have been so many of them in the last few years, and so few have amounted to anything.

General Outlook: Most authorities agree that the recovery movement will continue into next spring. Few are willing to gamble an opinion on what will happen thereafter. The political situation is an unsettling factor, and will probably remain so. The government's fiscal policy remains the worst of all factors so far as the long view is concerned.

Mr. Roosevelt may succeed in defeating Senators George and Tydings, and Representative O'Connor—the three Congressmen who head the Administration's "purge list." But even if he does, his troubles will not be over by any means.

That is the gist of political opinion on the President's recent tour. Reason: If these and other more or less anti-New Deal Democrats are beaten, it will be credited to White House intervention. Their thousands of followers will be bitter at the Roosevelt leadership. They will be eager to change the control of their party.

Furthermore, there is a growing

(By Carl Barkow)

We hope that when the 1450 absentee ballots are counted next Tuesday, Tax Collector Charles R. Stibbens will have enough of them to insure his election. This is a lot to hope for, because he must have all but 100 of them to be elected, which is hardly possible. Stibbens received 12,947 votes in the primary, Charlie Jones got 7,854, and Beecher Scott (the defeated candidate) 6,309. In order to win in the general election, Jones must get five-sixths of Scott's votes, which is hardly possible. When it becomes generally known that Stibbens has been unjustly accused of nepotism, Jones may not be able to hold all the votes he received in the primary election and Stibbens will therefore win.

It is also deplorable that a candidate who received twice as many votes as his nearest competitor must go through another campaign in the general election, but that is exactly what Sheriff Carl Rayburn is up against. He received twice as many votes as Roman Warren, who will oppose him in November, but because he did not receive more votes than all of his four opponents combined, the two highest must go on the ballot again. Conceding all of Perry Burnett's 642 votes to Warren, at least half the votes received by Hoagland and Stanfield should go to Rayburn, for both of these candidates had a strong following and there is no reason to believe the votes they received were anti-Rayburn votes. If that should occur (figuring on the basis of the number of votes cast at the polls last Tuesday) Rayburn would get 6,000 more votes than Warren. We don't believe Carl Rayburn has a thing to worry about, for we are confident he will be the choice of the majority of the voters.

The gubernatorial fight of 1934 will be repeated this year, with Upton Sinclair's right-hand man, Culbert Olson, opposing Governor Merriam. Issues similar to those contained in Sinclair's Epic platform will be the bone of contention, this year the Olson-endorsed \$30-a-week pension being the chief issue, which, however, any governor who may be elected would be forced to enforce if by some miracle it should carry, for it is a separate proposition to be voted on. The same issue will be in the forefront in the contest between Bancroft and Downey, Republican and Democratic candidates respectively for the U. S. Senate. Bancroft will have an easier time of it than Merriam, for the latter will again have another strong opponent in the person of Raymond Haight, who received the Progressive gubernatorial nomination. Haight will pull votes from both Merriam and Olson, but of course he cannot get enough to be elected. He is just the proverbial monkey wrench in the machinery, and if he prefers one candidate over the other, he owes it to his state to withdraw from the race. Haight belongs in the Republican ranks, because he leans more in that direction than toward the more radical views of Olson. However, Merriam defeated Sinclair and Haight four years ago, and he probably can do it again this year, for the voters know more about him now than they did then. This writer has supported Frank Merriam ever since he was lieutenant-governor and we are working in his behalf again during this campaign.

CABAZON SCHOOL TO OPEN ON SEPTEMBER 12

Cabazon school will open on September 12, with a full enrollment indicated.

Teachers will include Mrs. Flora Rose, Evelyn Brin of Colton and Mary Ellen Williams of Redlands.

feeling of restiveness among congressmen, including some of those who have been 100 per cent New Deal, because of what they regard as White House dictation. The prospect is that the President will have plenty of trouble getting his legislative program through next session, irrespective of what happens in the elections.

McAllister Retires So. Cal. Gas Co. High Post

Appointment of William P. Hand to succeed H. C. McAllister as manager of the Southern California Gas Company's eastern division, headquarters in San Bernardino, was confirmed this week by Agent C. K. Graham of this district. McAllister retires on September 1 under the company's uniform pension and benefit plan, after 29 years service here.

Hand, former district agent of San Bernardino, has served during the last few months as assistant manager. He has been identified with the company for 12 years in various capacities in the Los Angeles office, and was transferred as district agent to San Bernardino three years ago.
